

January 2024

Verco PLN™-24/N-24 Family Phaseout

Verco regrettfully announces the phasing out of the Verco PLN™-24 and N-24 family of products. This includes all versions of the N-24 deck ranging from FormLok, PunchLok, Cellular, Acoustical and Fully-perforated deck. Since the introduction of PLN3™-32 and HSN3-32 family of profiles in 2012 customer response has shown that in N deck profiles that the 32" wide PLN3™ / HSN3 is preferred over the 24" wide PLN™-24 / N-24.

As of July 31, 2024, Verco will no longer produce any deck from the PLN™-24 and N-24 family. The only exception will be ongoing projects where Verco has already shipped deck from the PLN™-24 and N-24 family.

Verco will no longer publicly publish datasheets and catalog information starting on January 21, 2024. All of Verco's information for PLN™-24 / N-24 will still be available by written request to the Verco Engineering Department. As of March 15, 2024, this information will be considered legacy and available only as historical data.

If you have any additional questions or concerns, or if you wish to discuss this further, please contact your local Verco representative.

Best regards,
